Status:

Completed

Time of Day: 1:30p.m. – 8/3/23 11:00a.m. – 8/7/23

Description of Request/Issue/Question:

Please see attached violation/s of construction crew awarded the contract for project "Gas'N'Wash" located on the corner of Rt.83 and Main Street.

I have personally called Lemont non-emergency on more than one occasion due to work activities commencing before ordinance hours and in clear violation of OSHA 1910/1926 standards.

To see the attached images just outside our single-family home is appalling!

A fatal accident is the likely outcome if there's a collision with construction equipment!!

Body: The Village Public Safety specialist monitored the construction crews for 1 week and did not observe any violations. He also reached out to the construction company to remind them of the ordinance. We will continue to monitor the situation.
