Good morning Commander Buczyna and Mayor Egofske,

- Is there someone else I should be contacting within the Village of Lemont or the Lemont Police Department?

On 04/08/25:

Now Retired Chief of Police Marc Maton wrote;

"Commander Joe Buczyna will be your point of contact for passing along additional progress as it becomes available."

- **It has been over 2 months since your last communication (update) on the long-standing issue next door.**
- The attached photos from last night and this morning show the issue has not gotten any better and is far from resolved.
- Trucks illegally parked (in a closed lot) and idling all night long directly across the street from our residence.

The photos show a ~12 hour duration.

Please let me know whom I can contact for support to enforce the Village of Lemont Ordinances that are clearly posted and **Illinois statute [625 ILCS 5/11-1429](#)** which limits diesel truck idling and prohibits excessive idling.

Please tell me what else I can personally do to assist with putting an end to these diesel medium-and heavy-duty vehicles (MHDV) polluting our community, the environment, and poisoning my family.
